

*Translational Research Center for Gastrointestinal Disorders*

Prof J. Tack – Prof I. Depoortere

**Mini-symposium**  
**Mechanisms in the gastrointestinal tract that control food intake in health and disease**

November 5<sup>th</sup>, 2014

Promotiezaal, Universiteitshal, Naamsestraat 22, Leuven

13h25-13h30	<b>Welcome</b> Prof J. Tack (Targid, KU Leuven, Belgium)
13h30-14h05	<b>Role of gastrointestinal motility in control of food intake</b> Prof A. Masclee (Maastricht University Medical Center, The Netherlands)
14h05-14h40	<b>Nutrient sensing in incretin secreting cells</b> Prof F. Reimann (University of Cambridge, UK)
14h40-15h15	<b>Pathways for the satiating effect of peripheral GLP-1</b> Prof W. Langhans (Swiss Federal Institute of Technology Zurich, Switzerland)
15h15-15h50	<b>Procedures and outcomes in bariatric surgery</b> Dr M. Lannoo (University Hospitals Leuven, Belgium)
15h50-16h25	<b>Can we mimic the gastric bypass without surgery?</b> Prof C. le Roux (University College Dublin, Ireland)
16h25-17h	<b>Coffee break</b>
17h-18h45	<b>Doctoral thesis defense: The role of the gastrointestinal tract in the generation of hunger peaks</b> Eveline Deloose (Targid, KU Leuven, Belgium)
18h45-20h	<b>Reception</b>

The symposium is free of charge but for logistic reasons please register at the website <http://www.girem.be/events.php> before October 24th
